		<p>This is the best service I have ever used hands down. I organized a 30 year high school reunion with a small committee (3 people). It was a huge success because of ReunionDB. There wasn't one aspect of the reunion planning process that they didn't do outright or help on. Besides the obvious database creation and payment processing etc., ReunionDB knew exactly what to say and when to say it throughout the 9 month process. The staff was excellent...Helpful, friendly, efficient etc. They did over 90% of the work and our committee got 100% of the credit from the attendees!</p>

		<p>It would take a book to give true credit to ReunionDB for the help they provided us in setting up our reunion. Let us just say we do not know how we would have accomplished our mission without their help and in particular Tom Brown. They helped us with almost every facet of our effort and made many tough parts seamless. We (our committee) would simply like to say "thanks!" to Tom and his staff for what was a very successful reunion. We received many positive comments from our attendees and nothing negative. The thing is, few of them will never know the behind the scenes efforts of ReunionDB and what it took to pull it off. So, if you're looking for a successful event, I would HIGHLY recommend ReunionDB!</p>

		<p>What started out as an arduous task became an efficient, effective process when I met the good people of ReunionDB. Following RDB's proven playbook enabled our planning committee (2 people!) to reach more classmates than ever before. The extensive and comprehensive database created by RDB facilitated frequent communication, provided real-time stats for instant progress reports and gave access to multiple queries and print programs. A huge relief was the on-line ticket purchase via credit card feature with an interface that safely and securely accomplished the critical accounting functions. This was most successful reunion we've ever had and I give RDB the lion's share of the credit. Their system and the hands-on support of their staff lead us every step of the way. ReunionDB is absolutely the ultimate resource for reunion planners everywhere.</p>

Their staff had everything paced according to our timeline and we met everything perfectly and even had way more attendees that we initially anticipated. 		<p>“Every reunion committee should be using ReunionDB! Our class had a reunion every 5 years with very low attendance. When I joined the committee for the first time this year, I knew going in that my goal was to make sure every classmate was invited. Finding all of the missing classmates was our biggest problem and with a class of 549 students that was an overwhelming task. With the help of ReunionDB, we located 88% of them within days! Their staff was with us every step of the way. They know how to keep the upcoming event in the forefront of each classmate's mind and generate excitement with mass emails, Facebook group updates and tiered ticket pricing. For the first time, potential attendees could watch the RSVP list grow from week to week which encouraged even more ticket sales. Our reunion was a huge success! We surpassed our ticket sales enabling us to have our entire ReunionDB startup fee refunded back to our committee...and we're able to continue to use our database forever! If you're searching for assistance in reunion planning, signing up with ReunionDB is a no-brainer! ReunionDB can turn a nightmare into a life saver!”</p>

		<p>“I wish I could adequately express our thanks to Tom and all of the wonderful folks at ReunionDB for making our 40 year class reunion the wonderful success it was! We started planning in January for our October reunion. From our very first contact with ReunionDB, we literally had someone to guide us through every step of the process...all the while ensuring us that if we followed the program, it would be successful. Sometimes along the way you can become frustrated and wonder if all of the work will be worth it in the end...trust me, if you follow ReunionDB's proven method, it will! Perhaps the number one reason our reunion was so successful is that we had a very large number of attendees, which we could have NEVER done without the help of the amazing database. It does ALL of the work for you! During and following the event, the feedback was overwhelmingly positive, and all agreed, it was the best reunion we've ever had! And this was for the 40th! 		<p>“Having struggled with not knowing where to start and what to do next with trying to organize our high school reunion, it was with great relief that ReunionDB said they could help make it a success and that we still had time to "make it all come together". Connecting with classmates was the first challenge as we were organizing a 50th reunion, ReunionDB gave us the latest known address and phone numbers, we were given direction with wording and when it would be the best time for sending updates and notifications. To sum it up, with ReunionDB this process was extremely well structured to optimize notifying of classmates of the specifics of the upcoming reunion and to reach out to those classmates that seem "unreachable".</p>

		<p>“ReunionDB really works! By following their process, our 20th reunion had a 40% attendance rate. That's correct - 40% of my classmates crossed the country and oceans to attend. Not only was it the highest attended reunion for my class, it was the highest attendance rate for any 20th reunion in the last few years. Reunion success relies heavily on the number of classmates who attend, and ReunionDB knows how to get them there. We will be using this formula for all of our reunions from now on. Thanks ReunionDB!”</p>

		<p>“Our reunion would not have been as successful as it was without the help of Tom Brown and ReunionDB. This was the first reunion that we have ever had so the thought of trying to track down classmates twenty years after we graduated was daunting. The bi-weekly conference calls, sales tools, sample email formats for reminders, etc. were all very helpful in the planning process. It was also very nice to have a place for people to go and order their tickets directly instead of everyone relying on me to collect checks, mail out tickets, etc. There is no doubt that when we plan our next reunion in five years that I will use ReunionDB again.”</p>

		<p>“ReunionDB and staff were absolute life savers for our 50 year reunion. With almost 300 classmates, my committee was overwhelmed from the start. How do we find all these people? How do we plan an event when we know nothing? ReunionDB had answers for every question we asked. Their suggestions and timely marketing guidance met with incredible success. Our class was one that had never experienced a strong reunion response in the past. 45% of our living classmates attended. We owe much of our wonderful evening to ReunionDB and Tom Brown. Thanks for all you helped us accomplish.”</p>

		<p>“ReunionDB was just great for our reunion. I have planned 3 reunions for our class. Even with a decent database in place, RDB was able to find MANY classmates that had been lost to us. Tom was great to work with. His marketing and event advice and the tools in the program were invaluable. Our classmates were impressed by the high level of communication and the ease of online ticket ordering. We will really be in good shape for the next reunion because we got to keep the database. I will never plan another reunion without RDB! Thanks, Tom!”</p>

		<p>“ReunionDB is the best! Tom Brown and his staff saved us. With only four months to plan our 40th reunion, they made it happen. Only one member of our small staff had worked on a reunion committee before so we needed a lot of help - and fast! They were key in helping to find our missing classmates, track them down and communicate our message. In addition, they helped us with key decisions about the event and follow-up communications. We had an excellent reunion and plan to use Reunion DB again for our 45th.”</p>

		<p>“Reunion DB is phenomenal! Had I not found this company, I truly don't know how I would have successfully organized my 10 year class reunion, much less had the amazing turnout that we had! Even the CEO and founder, Tom Brown, was personally available through email/phone correspondence for questions, logistics, and words of encouragement. From online ticket purchasing to easy print off name tags for the event, ReunionDB took the stress out of the planning process! I cannot thank them and recommend them enough!”</p>

		<p>“ReunionDB was instrumental in helping me with our 40-yr reunion. The database/website was extremely easy to use, made it very convenient for classmates to RSVP with their credit card, easily updatable to add pictures and I loved the calculator for ensuring I was always in the green. The personal attention that I received from the ReunionDB staff was beyond words and helped ease my angst on several occasions. Thank you again ReunionDB!! I've already referred their company to 3 friends for their reunions in 2013.”</p>

		<p>“To all planning a reunion: We just had our 50-year and it was a success thanks to the services provided by ReunionDB.com We had not had a reunion in 18 years (no formal reunion at all). We started out without a database and they built our entire class database for us. Loved the ability to generate reports, update info, also having accurate changes to the email info when people signed up for a ticket for the reunion. This was so helpful in providing payment options, etc. Would not do a reunion without this valuable tool. Cannot say enough good things. Tom and his staff were very helpful and always had quick responses to my questions.</p>

		<p>“A reunion planner needs ReunionDB mainly to save their sanity. It didn’t take me long to find out that I did not have the time, knowledge or patience to find all the missing addresses from our class. ReunionDB took the worry out of the initial searching. Collecting money was a breeze with online payments using credit cards. Putting our Memory Book together was painless because classmates filled in their own info right online. Denise and Tom were wonderful to work with. They guide you every step of the way with what you need to do and when you need to do it. I definitely recommend ReunionDB for planning a reunion.”</p>

		<p>“Planned our 30th reunion that was held this summer. Having also been involved in planning our 10th and 20th year reunions and experiencing both "do-it-yourself" planning and using a reunion planner, our committee was convinced that ReunionDB lessened our stress levels. From building the database, providing help in locating classmates, budgeting and most importantly, collecting and sending us the money, ReunionDB took a lot of the burden off the committee's shoulders. As an added bonus, the database is ours to keep!”</p>
