Biography / Memorable Life Experiences: Graduated in 73 to go explore the world. Life is still getting explored in different ways. Have been settled in Corvallis since 1985- been a single mom, have a great acupuncture practice and live in a beautiful place. Raising two sons and supporting them and their soccer teams to regional tournaments was great fun with great people. Rafting the Grand Canyon was one of the most magical things I have done and places I have been. Living each day fully and enjoying the expected and unexpected keeps me on my toes. **Biography / Memorable Life Experiences:** One of my my most memorable experiences in my life was meeting and marrying my husband Bill. Though married prior for 23 year's, the last 12 have been the happiest most spiritual I have experienced in my entire life. On the flip side, I suffered a TBI from a fall in 2005. To summerize, my personality took a 180, my short term memory is like a pea, my long term somewhat better. Having an off sense of time is something you never get used to and my math is slow...many other things combined, having been an avid reader I no longer pick up a book.
