**Memory Book**

# 50 YEARS!

When we walked across the stage in 1975 none of us could have imagined what the world had in store for us, and to be quite honest, fifty years was much too far away to even think about. Fifty years later, here we are. We've raised families, built careers, weathered health concerns and celebrated a new millennium. We did it all without cell phones, the internet and GPS for the first half of our lives. We are living proof that the 70's were as special as we remember.

Whether you travelled across town, across the country or made the trek from a foreign country, thank you for coming. To those who couldn't join us this time, you were missed and thought of often and we look forward to seeing you next time. To all of you who helped us out when we asked for an added donation, a double thank you. Your generosity allowed the committee to present a weekend to remember.

As members of your reunion committee, we've had the privilege of planning, executing and now finalizing your reunion experience. This Reunion Book is filled with proof we've lived full lives: careers launched, families raised, adventures taken, and wisdom gained. Feel free to laugh at old photos, marvel at how young we all looked and wonder why we ever thought those hairstyles were a good idea.

If you have the good fortune of friendships since elementary school or this reunion reconnected you with long lost friends, you're a part of our story. And what a story it's been.

Thank you for sharing your memories, your photos, your lives, and your time with us. Enjoy the book!
