		<p>“Working with ReunionDB made planning our reunion seem almost effortless. They walked us through every step - gathering classmate information, advertising, budget, contacting classmates - every aspect of planning. With a graduating class of nearly 1,000, and a committee completely new to reunion planning, we appreciated the professional guidance and proven procedures provided to us. Classmates commented on the easy online registration process, and liked the periodic updates and reminders. Using ReunionDB enabled committee members to enjoy our bi-monthly meetings as well as the reunion. Any reunion committee would benefit from using RDB!”</p>

		<p>“The RDB database is very powerful and the perfect tool for the job. It keeps track of so many things such as contact info, RSVP's, ticket sales and revenues, projected expenses and profit/loss, biographical information, photos, deceased etc. It makes planning the Reunion a breeze and facilitates a high-quality event with all the extras such as name tags with pictures, easy check-in, In Memoriam presentation and a follow up Biography/Memory Book that is first rate. The marketing plan, and all assistance provided, are exceptional. RDB guided us through the entire marketing effort with sound, proven and creative ideas. They also acted as a sounding board for a variety of issues related to our Reunion. I wholeheartedly recommend ReunionDB!”</p>

		<p>“Our reunion was a huge success with the guidance and support of ReunionDB! We were immediately impressed by the quick response we received when initially contacting them to inquire about services. From that point on, our account rep provided timely and informative conference calls with our planning committee to guide the process through each step. From budgeting, to classmate recruitment, to payment processing and communications management, we were very pleased with the quality of support provided. We greatly benefited from the shared best practices acquired by ReunionDB through their experience with numerous schools. We would definitely give ReunionDB a thumbs-up rating!”</p>

		<p>“ReunionDB saved the day! They found over 200 classmates we couldn't locate; and created an amazing database that, among other things, we could actually purchase tickets from. They held scheduled conference calls with us, training us on how to use the database, creating fun emails to encourage classmates, and making sure we were on track. We had name tags with our senior photos on them, an email invitation including our class logo, a digital memory book of our event, and so many other great features. They walked us through every step of the way, and had some great ideas to share with us. I went from completely panicked to feeling confident in no time. I would highly recommend ReunionDB to everyone!”</p>

		<p>“ReunionDB was a tremendous help with our reunion. They made it very easy to contact classmates once we had contact information. They posted in addition to my posts using my name publicized our reunion. I didn't need to think about getting the word out to classmates as it was done by them. I still did a lot of searching for classmates and collecting their contact information, in addition to what ReunionDB was able to find. Tracking screens and reports were very helpful using the database they set up for us that we will continue to use. I highly recommend ReunionDB for your next reunion!”</p>

		<p>“The best thing that happened to our reunion committee was ReunionDB! They helped us find more e-mail and street addresses. For the most part, we were able to use the Internet for everything, except for a few classmates without computers. This cut our expenses immensely. RDB has the everything cookbook for a committee. Sure, you still have to pick a place, decide the food and the entertainment, but as far as contacting classmates and getting them to RSVP...and pay...ReunionDB has you covered. You can be sure that any future reunion we'll be using ReunionDB!”</p>

		<p>“Partnering with ReunionDB turned out to be the smartest decision our Reunion Committee could have made when planning our reunion! We accomplished a lot in our initial months; however, it soon became clear that we did not have the bandwidth to provide the superior classmate experience being offered by ReunionDB. They absolutely delivered on their claim to increase our Reunion attendance via their excellent Marketing Plan. This made it possible for us to cover the RDB service fees and still have ample funds to cover our other event expenses. We are grateful to have partnered with ReunionDB and would highly recommend them to other Reunion Committees!”</p>

		<p>“I would highly recommend using ReunionDB for your next class reunion. Some of the details they took care of were: sending out save the date cards, reunion invites, emails to my classmates, posting updates to the class Facebook page, ticket sales and payment options. It was wonderful to have someone to take direction from, with some of the important details. Their entire team was wonderful to work with. Their regular conference calls with us confirmed that we were on the right track. When ticket sales were lagging, they provided us with strategies to increase attendance. I would highly recommend ReunionDB without hesitation!”</p>

ReunionDB™ Customer Testimonials & References

		<p>“ReunionDB has been a great resource for our reunion planning. Having a database with the ability to maintain emails for your peers is so important. We have found over the years (and we just had our 40th) that the hardest part is finding people. ReunionDB helps with that, but some of that remains on you too. ReunionDB has templates made for your invites, your communications (for social media and email), financial tracking tools, etc. Biggest piece of advice, use them as early as you can because you have access to that database from that point forward. Good luck and have fun. Old connections are the best connections.”</p>

	<p>"I just want to say how MUCH I appreciate this company! We were one of the first schools who signed up with ReunionDB over 10 years ago. Since we have used ReunionDB, they have been a God send to us!!! I ALWAYS tell ANYONE who talks about a reunion to contact their company. THEY ARE WONDERFUL to work with. Their database and marketing services take a huge load off your shoulders, with everything they help with and AGAIN can't say enough about their team members! WELL WORTH THE MONEY AND TIME! We will use them until we are done with reunions."</p>

	<p>"Our class has worked with ReunionDB on two reunions now: our 50th in 2018 and a 55th in 2023. Both were highly successful and the tools and expertise that ReunionDB provided made the entire process so much easier than the manual procedures that we struggled with for prior reunions. ReunionDB was able to find contact information on classmates that we thought were lost to us forever; their handling of online ticket purchases was both smooth and reasonably priced; and their able assistance in guiding our marketing efforts through the use of email and social media was invaluable. I'm a veteran of 4 reunion committee campaigns and, simply said, there is no way I would consider taking on another without RDB's help!"</p>

	<p>"I served as co-chair for my reunion. A friend from another school was using ReunionDB for their 50th, which was scheduled two weeks before ours. We both experienced outstanding results. ReunionDB's approach is customized to maximize attendance using their robust database search system. We located many more classmates than we would have found using our resources alone. Planning a reunion with the guidance and expertise of the ReunionDB team was enjoyable and worthwhile. I highly recommend ReunionDB to anyone considering planning a reunion event."</p>

		<p>“For our previous reunion, we self-planned. Self-planning was a lot of work. Arguably, we did save some money, but when our 60-Year reunion approached, we wisely decided to seek the services of ReunionDB. We loved their process from start to finish. ReunionDB's database made things much easier for us, offering quick and reliable access to classmates' contact and biographical information. This also provided us with an efficient email outreach. In addition to its excellent technology, ReunionDB has a well-proven marketing system. We stayed on course and were very pleased with the results--a successful reunion!”</p>

		<p>“From our first introduction, ReunionDB provided all of the assurances our Committee was looking for. We were especially concerned about database compromises and data sharing. ReunionDB is secure, the access is easy for classmates to use, and the database is updated in real time to provide accurate and timely information. The support provided by ReunionDB to the Committee was exceptional from inception and throughout the process. The organizational process for structuring a Reunion is exceptional and proven effective over many years. We were able to exceed our attendance goal for our 50th Reunion and now have a database that will be helpful for future years. We recommend ReunionDB to everyone!”</p>

		<p>“We have repeatedly heard from those who attended that this was the best ever! A part of our success can be attributed to ReunionDB. For past reunions, planning was like starting over every time the reunion came around. We were working off paper copies and had to chase down who had what last. ReunionDB changed all of that for us! They were a dream to work with. They set up our database, trained us to maintain the security and integrity of our data, guided us through the planning costs, and helped us reach out to many of our classmates who had either never been contacted or didn't attend in the past. 		<p>“To say my experience of having a fantastic time as a committee member and participant in our 2-day North Phoenix High School (NPHS) 1960 Graduating Class in October 2022, would be a gross understatement. The joy and heartfelt experience everyone had was astonishingly spectacular! I attribute this phenomenal event to the guidance and expertise of ReunionDB and our own committee leadership. I had attended many of our past reunions, but none of them culminated with such joy and fulfillment as this one. It is the first time we engaged ReunionDB who provided such a big picture vision and all the details for us to create such a magical reunion.”</p>

		<p>“ReunionDB is the best database resource for planning your high school reunion. We had a very short time to organize ours with just two months to sell tickets due to the Covid19 pandemic. With the incredible help of ReunionDB, we were able to sell 160 tickets and it was a very organized, fun, and stress-free event. I like planning parties and events but dislike the logistics that ReunionDB provides such as finding classmates, building your database, communications, email blasts, assists with budget, ticket sales, picture/name tags, memoriam, digital memory book. The entire staff were wonderful to work with! I highly recommend ReunionDB and it is definitely worth investing with them.”</p>

		<p>“ReunionDB and the entire staff were absolutely essential to the success of our 50th Reunion of Arlington High School. Their expert advice helped us maximize the reach and the fun experience of the reunion. The database technology ReunionDB uses is outstanding. It created a long-term source for us for many reunions to come. It made the committee's job easier by automating the process, extending our reach in finding classmates, and maximizing attendance at time of covid vulnerability. I highly recommend using Reunion DB to maximize the positive effect of your reunion.”</p>

		<p>“Our class could not have had a successful 50th Reunion without ReunionDB and its incredibly professional and very nice and helpful staff. Their database allowed us to know we had good current working email addresses which was one way we communicated to our classmates. It allowed us to offer an effortless way for classmates to RSVP, purchase a ticket, donate, complete a BIO entry all in one place that we did not have to maintain. All the marketing expertise that RDB offers to a reunion committee were what kept us on track. We were able to balance our accounting and stay on budget. Even being spreadsheet savvy, to try to track all that RDB does for you would be a daunting task. Leaving marketing, database functions, reports, and queries to RDB was golden and worth every penny!”</p>

		<p>“This is the 2nd reunion I planned. This one was our 50th reunion and it was awesome! Using ReunionDB was by far the most efficient and easy way to forecast the actual cost of the reunion. They were very helpful and answered all our questions throughout the process. Having them send out emails and reminders on a regular basis was a very easy way to keep alum informed and excited about the reunion. Our attendance was more than doubled over the previous reunion where we did not use ReunionDB. I would recommend using ReunionDB to anyone! We had tons of positive feedback and using them was money well spent.”</p>

		<p>“Robert E Peary Class of ‘69 in Rockville MD, just held our 50th Reunion. From a class of over 450 people we were able to find and communicate with over 75% of the Class which was remarkable. This would not have been possible without the assistance of ReunionDB. They got us started in the right direction months before the event and stayed with us throughout the big weekend. Finding classmates, communicating, advising, and providing logistics (e.g. Database building, ticket sales, nametags, In Memoriam, etc.) were essential to the wonderful experience. We couldn't recommend ReunionDB higher.”</p>

		<p>“Our reunion was AWESOME!! We had tons of positive feedback and so many people thanked us repeatedly for keeping them informed about the reunion with reminders, who was coming and the user-friendly registration; all of which was provided by ReunionDB. They kept us on task with what needed to be done and when. Their database is very user friendly and just when we thought we stumped them with an odd question, there was the answer in the FAQs! They provided great customer service and their response time to emails was outstanding. They really know their stuff and we appreciated all of their knowledge and guidance. I would highly recommend them!”</p>

		<p>"I absolutely love ReunionDB! I had been the keeper of the data for years and had been in a car accident. I wanted to make sure that everything would be available to anyone running future reunions, and our committee voted to go with ReunionDB. It makes life so easy! With the memory book, printed name tags, a link to share with our classmates to find our missing people, tracking of our budget and spending so that we were able to charge much less per ticket than in reunions past - not to mention the amazing ReunionDB staff walking with us every step of the way, sending out our emails and reminders, and phone consultations. I highly recommend using ReunionDB. The cost is nominal and the return is phenomenal!"</p>

		<p>"Hiring ReunionDB was a game changer for our 50th reunion. Their ability to find missing classmates was amazing. It allowed our 6-member planning committee the opportunity to focus on the reunion events around a school tour, red-dedication of a class gift, a golf outing and two evening events. Their approach to marketing assured that we would have a maximum turnout for the Saturday night main event. We had 240 attendees (190 of which were classmates). Our classmates raved about the planning and execution, and we have no but ReunionDB to thank!"</p>

		<p>“When the task of coordinating our fifty-year reunion fell to a few individuals less than a year before the event, we found the best solution to our dilemma in ReunionDB. Tom Brown and Linda Taylor worked efficiently and consistently with us to make this reunion such an outstanding event. The marketing program, database design and online ticketing made the committee’s job easy, and saved us hundreds of hours of work. We were able to reach many more people with the assistance of ReunionDB. The memory book provided each classmate with visual memories of a great reunion. I wish to express our deep gratitude to ReunionDB for working with us to make our 50-year reunion such a resounding success. If you are planning a reunion, we highly recommend hiring them.”</p>

		<p>“ReunionDB is a “must have” if you’re planning and organizing a reunion. Our classmates think our high school committee was full of IT savvy people (LOL)! We were continually being complimented on how organized we were. Little do they know it was all REUNIONDB! Their extremely pleasant and helpful staff walked us through every step of the reunion process. I am certain our reunion was a huge success because of their expertise. Thank you ReunionDB... you were truly a blessing to us and made our 40-year High School Reunion “One to Remember”! See you in 2022 for our 45th!”</p>

		<p>“The ReunionDB staff was great from start to finish. The hands-on approach was really helpful with our promotional advertising via email and through Facebook. Having a database for our reunion committee to access payments and locate classmates was really helpful as well. To know that we can always reference the information in database and download reports was also an awesome feature. Having a shareable links to send to our classmates was an added plus. Overall I don't think we would have been as successful without structure and proper marketing of our event. We had a really fun event thanks to ReunionDB!”</p>

		<p>"I cannot speak highly enough of ReunionDB who assisted our class through the planning and execution of our 50th Class Reunion. Their expertise guiding us through this very well planned program was exceptional. If I ever had questions and sent them an email they would get back to me within the same day. I would never be called Tech Savvy by anyone who knows me. They never made me feel foolish with my very basic questions. The ReunionDB program has built-in frequently asked questions that really do answer most of the issues that come up during planning. The marketing strategies were very good and effective. Regular conference calls with them kept all team members up to date. I highly recommend ReunionDB to any group organizing a school class reunion."</p>

		<p>"The ReunionDB team was fantastic! They saved us hours of time, and most likely a lot of money. Our committee went through what every reunion probably goes through, the "What Should We Do?" phase. With ReunionDB you are provided with a tried and true plan that all you need to do is "Execute." It was great and saved us hours and hours of the blind leading the blind while we figured out all of these things on our own. And with all these things handled for us, we could then focus on the more value added aspects of planning the reunion. I highly recommend ReunionDB to anyone planning a high school reunion."</p>

		<p>"I had a wonderful experience working with the ReunionDB program and with their staff. My fears were put to rest about entering a program that I didn't know anything about, both reassured me they would walk me through each step to make sure I entered everything correctly and that in the end my 50th Reunion Booklet would be wonderful. I am happy to say both were correct and I so appreciated all the help and their expertise! So very helpful, so very patient, too! Everything ran smoothly...everything was professional...and in the end, my booklet was magnificent. So appreciate everything. For anyone not sure about signing up with ReunionDB - don't hesitate to do so. It made my job as chairperson for my reunion so much easier!"</p>

		<p>"When my co planner and I talked about planning our reunion we initially talked about planning it ourselves. We are so glad we did not do that!!! ReunionDB was the best way to go! It was so organized and easy to plan. We couldn't have done it better. Our reunion was a great success and a big part of that was using ReunionDB as they do the big bulk of the work. They kept us on a simple timeline and everything fell in to place perfectly. The website is easy to navigate and all the important information is easily accessible. We highly recommend using ReunionDB!!!"</p>

		<p>"I am so glad we used ReunionDB to help us plan our high school reunion! They did an excellent job finding addresses and emails for most of the classmates we were unable to previously find. They developed an extremely useful database that we can continue to use for years to come. Their staff was always available to answer my questions and offer suggestions for a successful event. Their marketing techniques were outstanding, providing us with unique graphics to use on Facebook and in emails that they sent to the classmates on our committee's behalf. I would certainly highly recommend using this company!"</p>

		<p>"After being 'volunteered' to work on our 50th high school reunion with a few of my old friends, one of the first - and ultimately smartest - things we did was to contact ReunionDB. What a difference! From the beginning of the planning process through completing the post-reunion analysis, Tom Brown and his team provided the resources and the wise counsel needed to make our event as successful as possible. We were able to locate and contact many more of our classmates than we could have had we chosen to do it all ourselves. We retain access to the database so that we can update information on an on-going basis. Our next reunion should be even easier to organize. Many thanks to the entire ReunionDB team!"</p>

		<p>“ReunionDB was a tremendous help with planning our 50 year class reunion. Our class had not had a reunion in 30 years. ReunionDB helped us locate many classmates that would have been lost to us had we not used their search system and useful tips. The communication plan was priceless with the reminders about upcoming events and deadlines. A big help was the collection of money for tickets! There was no hassle about collecting checks, making bank deposits and sending acknowledgments. All that is taken care of through ReunionDB. They helped make our 50 Year Reunion a great success. One that our classmates are still talking fondly about months later.”</p>

		<p>“A computer search resulted in us finding ReunionDB. They helped find missing classmates, created a great class database, helped with content, timing and methods to reach out to classmates and helped put together a digital Reunion Memory Book that was free to all classmates with email addresses. Another great thing was that reunion ticket sales and payments were handled through their website. At our post reunion review, our committee was in unanimous agreement that contracting with ReunionDB was the best decision that we made. With the help of the ReunionDB staff, the tasks that we feared would be daunting actually ended up being an enjoyable process. 		<p>"It's been 30 years since the Baltimore City - Class of 1965 got together, so imagine the formidable task of finding over 1,000 classmates. Thanks to ReunionDB, the job got a lot easier and then the registration process got even easier. So, too, did the ability to send emails to those with an RSVP as well as to remind others to RSVP soon. ReunionDB staff was there to help every step of the way. It's a great planning tool and our class recommends it to anyone trying to put together a class reunion."</p>

		<p>"Our Reunion Committee was very pleased with Tom Brown and ReunionDB, from the beginning to the reunion date. Tom is very thorough and walked us through all of the steps for a successful reunion. He provided ideas and advice that our committee needed. Tom assisted with many reunions and we do one every 10 years, so we were definitely in need of his expertise, especially in getting more classmates to attend than in the past. All in all, our reunion was just what we had hoped for and much of the success was because of Tom and his staff. We would highly recommend ReunionDB to any reunion committee."</p>

		<p>"It would take a book to give true credit to ReunionDB for the help they provided us in setting up our reunion. Let us just say we do not know how we would have accomplished our mission without their help and in particular Tom Brown. They helped us with almost every facet of our effort and made many tough parts seamless. We (our committee) would simply like to say "thanks!" to Tom and his staff for what was a very successful reunion. We received many positive comments from our attendees and nothing negative. The thing is, few of them will never know the behind the scenes efforts of ReunionDB and what it took to pull it off. So, if you're looking for a successful event, I would HIGHLY recommend ReunionDB!"</p>

		<p>"We honestly don't know how we would've planned our 40-year reunion without ReunionDB. Their budgeting feature was SO helpful. It helped determine our ticket price and helped us determine if we could afford all of the extras that made our night so memorable. Our regular calls with them kept us on track and with their expertise, we were able to generate ticket sales that we may not have had otherwise. I would totally recommend ReunionDB. We can keep our database updated between reunions which will allow us to be ready for our next one in 2020 - and we'll use ReunionDB again. They were great partners!"</p>

		<p>"Our committee consisted of just 2 people, planning an event that we hoped would have at least 100 guests attending. We needed all the help we could get. ReunionDB's database allowed us to easily reach out to classmates and put the word in the street more effectively than traditional emails would have allowed. It gave our efforts a very polished and professional look, something that two busy committee members would simply not have time to do. ReunionDB allowed us to free up our time so we could focus on putting together the best event we could; attendance exceeded our expectations and I would highly recommend their services."</p>

		<p>“What started out as an arduous task became an efficient, effective process when I met the good people of ReunionDB. Following RDB's proven playbook enabled our planning committee (2 people!) to reach more classmates than ever before. The extensive and comprehensive database created by RDB facilitated frequent communication, provided real-time stats for instant progress reports and gave access to multiple queries and print programs. A huge relief was the on-line ticket purchase via credit card feature with an interface that safely and securely accomplished the critical accounting functions. This was most successful reunion we've ever had and I give RDB the lion's share of the credit. Their system and the hands-on support of their staff lead us every step of the way. ReunionDB is absolutely the ultimate resource for reunion planners everywhere.”</p>

		<p>“ReunionDB took the stress out of planning a reunion. Their staff had everything paced according to our timeline and we met everything perfectly and even had way more attendees that we initially anticipated. I honestly do not believe we could have had such amazing success without them. The nice thing now is that if we are going to plan for anything in the future, we already have everything all set up with them. They did all the hard work. It was really great. The rates for what they did are extremely reasonable too. I would definitely engage them in the future.”</p>

		<p>“My 50th high school reunion was the best ever! We had more people come to the 50th than any before, thanks to ReunionDB. We had hoped to sell 100 tickets (at best), but with the marketing expertise and guidance of Tom Brown, we sold 156 tickets! Classmates came home from 27 states! Pure success, so much fun, and a weekend we’ll never forget. Every feature of the ReunionDB database and service was outstanding: finding classmates, database, conference calls, online ticket purchasing, accounting, name tags, memory book, everything. Many, many thanks to Tom and his staff. I highly recommend ReunionDB for anyone planning a high school reunion.”</p>

		<p>“Every reunion committee should be using ReunionDB! Our class had a reunion every 5 years with very low attendance. When I joined the committee for the first time this year, I knew going in that my goal was to make sure every classmate was invited. Finding all of the missing classmates was our biggest problem and with a class of 549 students that was an overwhelming task. With the help of ReunionDB, we located 88% of them within days! Their staff was with us every step of the way. They know how to keep the upcoming event in the forefront of each classmate's mind and generate excitement with mass emails, Facebook group updates and tiered ticket pricing. For the first time, potential attendees could watch the RSVP list grow from week to week which encouraged even more ticket sales. Our reunion was a huge success! We surpassed our ticket sales enabling us to have our entire ReunionDB startup fee refunded back to our committee...and we're able to continue to use our database forever! If you're searching for assistance in reunion planning, signing up with ReunionDB is a no-brainer! ReunionDB can turn a nightmare into a life saver!”</p>

		<p>“I wish I could adequately express our thanks to Tom and all of the wonderful folks at ReunionDB for making our 40 year class reunion the wonderful success it was! We started planning in January for our October reunion. From our very first contact with ReunionDB, we literally had someone to guide us through every step of the process...all the while ensuring us that if we followed the program, it would be successful. Sometimes along the way you can become frustrated and wonder if all of the work will be worth it in the end...trust me, if you follow ReunionDB's proven method, it will! Perhaps the number one reason our reunion was so successful is that we had a very large number of attendees, which we could have NEVER done without the help of the amazing database. It does ALL of the work for you! During and following the event, the feedback was overwhelmingly positive, and all agreed, it was the best reunion we've ever had! And this was for the 40th! Please take our advice, and let ReunionDB partner with you to plan the best reunion you've ever had!”</p>

		<p>"I was the Chairperson for our 50 year reunion committee and I used ReunionDB to assist in organizing, marketing, managing the reunion. I am so glad that I did!!! What a great company! Utilizing their extensive experience with high school reunions they made my job so much easier. Through the entire step-by-step process of planning the reunion, they were completely "hands on" and helpful. The ease of use of their DB was great and I especially loved that all my classmates could buy their tickets online. The communication between me and my classmates using the email feature of the data base and their tips on how to best use social media was incredible. Bottom line...because of ReunionDB the attendance at our 50 year reunion surpassed all previous reunions!"</p>

		<p>"We experienced a most successful 50th high school reunion. We organized 3 events in a weekend. We started very late and struggled with minimal committee involvement. Our saving grace was ReunionDB, who helped research our missing classmates and became both our marketing arm and our back office. They supported us throughout the entire process. Their systems are proven. Their scheduling of communication to first the prospects and then the RSVPs was impressive. ReunionDB's team is led by Tom Brown, who is devoted to customer service. His patience and his instructive assistance truly made a difference in the success of the weekend."</p>

		<p>"Having struggled with not knowing where to start and what to do next with trying to organize our high school reunion, it was with great relief that ReunionDB said they could help make it a success and that we still had time to "make it all come together". Connecting with classmates was the first challenge as we were organizing a 50th reunion, ReunionDB gave us the latest known address and phone numbers, we were given direction with wording and when it would be the best time for sending updates and notifications. To sum it up, with ReunionDB this process was extremely well structured to optimize notifying of classmates of the specifics of the upcoming reunion and to reach out to those classmates that seem "unreachable".</p>

		<p>"ReunionDB really works! By following their process, our 20th reunion had a 40% attendance rate. That's correct - 40% of my classmates crossed the country and oceans to attend. Not only was it the highest attended reunion for my class, it was the highest attendance rate for any 20th reunion in the last few years. Reunion success relies heavily on the number of classmates who attend, and ReunionDB knows how to get them there. We will be using this formula for all of our reunions from now on. 		<p>"Our reunion would not have been as successful as it was without the help of Tom Brown and ReunionDB. This was the first reunion that we have ever had so the thought of trying to track down classmates twenty years after we graduated was daunting. The bi-weekly conference calls, sales tools, sample email formats for reminders, etc. were all very helpful in the planning process. It was also very nice to have a place for people to go and order their tickets directly instead of everyone relying on me to collect checks, mail out tickets, etc. There is no doubt that when we plan our next reunion in five years that I will use ReunionDB again."</p>

		<p>"We just had a completely successful 20-year reunion, thanks to ReunionDB! We could not have had this level of success without them or Tom Brown. The entire process was so easy. If we had a question, it was answered immediately. Tom gave us so many great ideas and motivated us every week! It could not have been easier! And I would recommend ReunionDB to anyone planning a high school reunion! Thanks for everything Tom! You are the BEST!!"</p>
