“Absolutely no one should begin to plan a reunion of any kind without first looking at ReunionDB’s Database and Marketing Plan. Never in my entire life have I worked with such helpful and supportive people. If you are thinking about planning a reunion for your high school, by all means necessary, don’t start without talking to Mike at ReunionDB. Their staff’s goal was our goal - to get record attendance and we had over 250 people at our 50-year reunion! It was so much fun, and we have ReunionDB to thank for that! I will definitely be in touch with them for our 55-year event in 2023.”

“Our 40th class reunion would not have been as successful if we did not use ReunionDB. They helped with every single detail, including setting up our database by downloading senior pictures, addresses, emails, etc. Helping us leverage our FB page, setup our accounting needs, email blasts, and our own conference call number. They also supported us with any questions we had throughout the process. It's a no brainer - if you want a successful reunion, use ReunionDB. We can’t say enough about them. And, most importantly, we get to keep the database they set up for us, to use for our next reunion! Highly recommend!!”

“If any of you are in a position to plan a reunion, I cannot say enough good things about ReunionDB. Their team was exceptional from beginning to end. There was not a stone left un-turned. Their database is outstanding and simple to use. The value added from ReunionDB far exceeds the nominal fee they charge and it is worth every penny spent. It was truly a pleasure to have such knowledgeable, customer orientated, talented people working with you. Their communication skill set is the best I have ever experienced in my 50 years in business. You will not need luck going forward if you use these folks, they are professional and experts at what they do. I am one happy satisfied reunion organizer. Our 50th was a smashing success that would not have occurred without ReunionDB!”

“I have no idea how on earth ANYONE can plan a reunion without ReunionDB! Trying to gather 250 people together, and doing it from another state to boot - I'd have been dead in the water were it not for this company and their wonderful database and everything that goes with We their database, I was able to do all the reach out, printing of mailing labels, sending out group emails, printing name tags, place cards with literally one click of a button. This would have been impossible had I been trying to use Excel! I also keep the database to use for every upcoming gathering. It's a time saver and a stress saver and to have ReunionDB in your corner. I'm so glad I found them and have recommended them over and over. They are a must if you want to have a successful reunion!”

Reunion Date: June 23rd, 2018

“Hiring ReunionDB was a game changer for our 50th reunion. Their ability to find missing classmates was amazing. It allowed our 6-member planning committee the opportunity to focus on the reunion events around a school tour, red-dedication of a class gift, a golf outing and two evening events. Their approach to marketing assured that we would have a maximum turnout for the Saturday night main event. We had 240 attendees (190 of which were classmates). Our classmates raved about the planning and execution, and we have no but ReunionDB to thank!”

Reunion Date: September 29th, 2019

“I can say without a doubt, ReunionDB is the best tool for planning a reunion. I worked on our 40-year reunion and it took us forever to gather names addresses and emails. They have made this process seamless. We would not have had the success we had without their expertise. Their staff did an amazing job helping us. They were available to answer any questions or concerns we had. We had a very small committee and we could never have done what needed to be done without their database. I have recommended them to 5 different classes and will continue to do so. A big thank you to ReunionDB!”

“We used ReunionDB for our 50th HS Reunion and they were fabulous! We would not have had such a great turnout without them. They are definitely worth the nominal expense to use their database. They send out many appropriate e-mails at appropriate times. They sell the tickets on line and they make it so easy. The people we worked with were so friendly, knowledgeable, and patient!! The conference calls we had with them were easy and so well organized. They teach you how to work their database and for three 68-year old committee members to understand it all says a lot! We highly recommend them for any reunion—they are great!”

“Being a former mainframe programmer, the database was easy to use. This company has far more access to finding our classmates than I could ever hope to accomplish. Coupled with their marketing plan and conference calls when needed, my database was more complete than any spreadsheet could accomplish. I’ve received nothing but kudos from numerous classmates indicating that our 50th was, by far, the best and most fun reunion we’ve had to date – and I have to say that ReunionDB was the shining star of our event. It would have been impossible to orchestrate our reunion as the exceptional event it was without the help, guidance and marketing plan of ReunionDB. Thank you to their team!”

Reunion Date: June 16th, 2018

“We started to plan our 50th year High School reunion and were trying to figure out how to begin to find everyone. One of our committee members found ReunionDB on line. Thank goodness they did! They create a database for us with all our classmates in it. They researched their addresses and phone numbers for the ones we did not have. Then it was time for us to collect email addresses. We followed their marketing plan that was flawless. The result was a magnificent event! We could not have had such a successful reunion with them. Thanks to you all at ReunionDB! You made this an evening our Class of 1968 will always remember!”

Reunion Date: September 23rd, 2017

“Hiring ReunionDB made planning our 40th reunion so much easier! We tried for several months to do it on our own and that was a struggle. Once we got ReunionDB on board, it was so straight forward. The email marketing program helped us sell 30 more tickets than for our 30th reunion. It made it so easy to have a place where we could keep our database, sell our tickets, send emails from, create a memory book from, generate lists we needed, and use a calculator to help us budget. Meeting regularly with ReunionDB staff to help us plan the event and focus on what to do next was really helpful. Don’t hesitate to hire them!”

“Tom Brown & Linda Taylor are why everyone planning a high school reunion needs a reunion database. Tom starts with his ability to steer your thoughts in a direction that will guarantee a successful reunion. Linda is a pro at working with the database that ReunionDB has created. If you think for one minute you could develop your own system to do what these wonderful people do for a living, just ask our 150 guests at our class reunion...they really had a great time. So Tom & Linda and your staff, thanks again for everything!”

**Reunion Date:** October 28th, 2017

“**I can't begin to say enough about ReunionDB. We had our 50th class reunion this year & they saved me SO much time and effort with their marketing tools, budgeting & ticket pricing help! There were no more spreadsheets to prepare and no mailings to do! Tom & Linda were super to work with and were so helpful with questions, problems, etc. If you are even thinking about planning a reunion, I highly recommend that you enlist ReunionDB’s assistance! I’ve done 7 reunions and 3 class birthday parties and none were as successful as this one, thanks to ReunionDB! They rock the reunion planning business!!**

**Reunion Date:** September 16th, 2017

“**Our 50th Reunion was a resounding success! I will not hesitate to recommend ReunionDB. I am sure we would not have had such a great turnout without ReunionDB, the database they built, their marketing plan and the support from the staff, (thank you Linda) who were available almost 24/7 through email and conference calls, being able to sell tickets online and receiving funds from sales made the whole process a no brainer. Being able to print nametags with pictures, check-in lists, memorial pages, and having a beautiful Memory Book about the reunion at the end are reason enough to use ReunionDB and now we own the database for future use. Thanks so very much!!!**”

“I LOVE LOVE LOVE the ReunionDB database!!!!”

“I just do not know how I can thank ReunionDB enough for all their help in the planning of our 40 year high school reunion. They were very helpful and their professional process made our reunion planning so much easier. They were there every step of the way to help make sure our planning was a success. From the email reminders each month, to the ticket purchases, guest list and last but not least the digital memory book! I strongly recommend them to help make your reunion planning a very smooth process. Without them, things would have been a lot harder and I would have been overwhelmed. Thank you so much!”

“If you’re looking for help for an upcoming reunion I would highly recommend ReunionDB. We just completed our 50th and because of the ReunionDB database and their staff, we had a reunion that will go down in the history books as the best our school has seen. The planning committee realized very quickly that we had a prized asset in ReunionDB. From the beginning right up to the very end their team were there guiding us through a tested and proven process. They helped us plan, prepare and organize. They kept us sane and on course. They are simply... The Best!”
“Our 50-year reunion found me with an impossible parental health situation but by 2017, I got it rolling. I contacted ReunionDB and was rapidly contacted by Tom Brown. He was able to glide this computer dummy (Me) effortlessly thru the maze, showing me how to guaranteeing a very successful Reunion.....at a great price I might add. The database built by ReunionDB stays with us forever. We had a "Dynamite" reunion and I want to thank ReunionDB for making this event easy and perfect.”

Reunion Date: February 9th, 2017

“I would suggest this program because it is the easiest tool I have ever used in planning an event. Our class is over 850 names, and it was a very overwhelming task just thinking about where to begin. The ReunionDB staff were amazing. Guiding every step of the way. To get a database of everyone, pictures and any current information eased the challenge immediately. From how to price the event, to what I needed to make the event successful, to the invaluable marketing plan, I was able to pull this off solo. The only assistance I needed from the committee was tracking down some classmates and at the actual event. My reunion was a huge success because of ReunionDB.”

Name: Carrie Worthington  
High School / State: Carl Sandburg / IL

Reunion Date: August 4th, 2017

“We worked with Tom Brown and his team from ReunionDB to plan our 40th high school reunion. We had a huge committee of volunteers, but it turned out that very few were needed with the support and legwork that ReunionDB provided. We were delighted to discover that there was a comprehensive marketing plan, with step by step actions to build the database of classmates, send notifications thru emails and snail mail to increase awareness and excitement for the event. We had a more than 200 classmates attend out of a graduating class just over 400! I highly recommend ReunionDB to any planner looking for a comprehensive and cost effective partner!”

> “Having ReunionDB as a partner in planning our reunion made our event as perfect as could be planned. From the first conversation with their staff, they were able to guide us through the entire process. They were always available if we had any questions. The committee, comprised of only five people, were able to stay organized and on track. Everything with ReunionDB is done online via their database and is comprehensive and thorough. They thought of everything! Even attendee’s payments are done through the database. ReunionDB was the best decision our committee made!”

### Testimonial 2

**Reunion Date:** July 22nd, 2017

> “If you are looking for help organizing an upcoming class reunion, your search is over. I was the sole planner for a 50-year class reunion this past summer. I was leery about a web-based organization (security and all!) but Tom Brown and his staff were very professional throughout the entire process assuring me that safeguarding of personal information was of the highest priority. With ReunionDB’s research and guidance, we were able to find classmates who had never previously attended a class reunion. Classmates joined us from 10 states and I had many, many compliments that this was the best class reunion EVER. ReunionDB delivered and should be your choice too.”

### Testimonial 3

> “After working on all of our reunions and co-chairing our 35th, I know firsthand how much time and energy goes into planning a reunion and how hard it is to please everyone. I knew if we were to have a 50th it would probably be up to me. I got online and googled help with planning class reunions which is where I found ReunionDB. What a difference from previous reunions! Their pleasant, professional staff guided us every step of the way. Their database is awesome! It has everything in one place and can be maintained for future unions. Their online payment option was another huge time saver. I heard from numerous classmates that this was our best reunion ever! They are definitely worth the cost.”
“When the task of coordinating our fifty-year reunion fell to a few individuals less than a year before the event, we found the best solution to our dilemma in ReunionDB. Tom Brown and Linda Taylor worked efficiently and consistently with us to make this reunion such an outstanding event. The marketing program, database design and online ticketing made the committee’s job easy, and saved us hundreds of hours of work. We were able to reach many more people with the assistance of ReunionDB. The memory book provided each classmate with visual memories of a great reunion. I wish to express our deep gratitude to ReunionDB for working with us to make our 50-year reunion such a resounding success. If you are planning a reunion, we highly recommend hiring them.”

“ReunionDB is a “must have” if you’re planning and organizing a reunion. Our classmates think our high school committee was full of IT savvy people (LOL)! We were continually being complimented on how organized we were. Little do they know it was all REUNIONDB! Their extremely pleasant and helpful staff walked us through every step of the reunion process. I am certain our reunion was a huge success because of their expertise. Thank you ReunionDB... you were truly a blessing to us and made our 40-year High School Reunion “One to Remember”! See you in 2022 for our 45th!”

Name: Terry Lathrop
High School / State: Monterey / CA

Phone: (530)574-6549
Reunion Date: August 5th, 2017

“The ReunionDB staff was great from start to finish. The hands-on approach was really helpful with our promotional advertising via email and through Facebook. Having a database for our reunion committee to access payments and locate classmates was really helpful as well. To know that we can always reference the information in database and download reports was also an awesome feature. Having a shareable links to send to our classmates was an added plus. Overall I don't think we would have been as successful without structure and proper marketing of our event. We had a really fun event thanks to ReunionDB!”

Name: Andriane Fudge
High School / State: Chicago Vocational / IL

Reunion Date: July 28th, 2017
"I cannot speak highly enough of ReunionDB who assisted our class through the planning and execution of our 50th Class Reunion. Their expertise guiding us through this very well planned program was exceptional. If I ever had questions and sent them an email they would get back to me within the same day. I would never be called Tech Savvy by anyone who knows me. They never made me feel foolish with my very basic questions. The ReunionDB program has built-in frequently asked questions that really do answer most of the issues that come up during planning. The marketing strategies were very good and effective. Regular conference calls with them kept all team members up to date. I highly recommend ReunionDB to any group organizing a school class reunion."

"The ReunionDB team was fantastic! They saved us hours of time, and most likely a lot of money. Our committee went through what every reunion probably goes through, the "What Should We Do?" phase. With ReunionDB you are provided with a tried and true plan that all you need to do is "Execute." It was great and saved us hours and hours of the blind leading the blind while we figured out all of these things on our own. And with all these things handled for us, we could then focus on the more value added aspects of planning the reunion. I highly recommend ReunionDB to anyone planning a high school reunion."

*Reunion Date:* September 9th, 2017

“I had a wonderful experience working with the ReunionDB program and with their staff. My fears were put to rest about entering a program that I didn't know anything about, both reassured me they would walk me through each step to make sure I entered everything correctly and that in the end my 50th Reunion Booklet would be wonderful. I am happy to say both were correct and I so appreciated all the help and their expertise! So very helpful, so very patient, too! Everything ran smoothly...everything was professional...and in the end, my booklet was magnificent. So appreciate everything. For anyone not sure about signing up with ReunionDB - don't hesitate to do so. It made my job as chairperson for my reunion so much easier!”

“When my co planner and I talked about planning our reunion we initially talked about planning it ourselves. We are so glad we did not do that!!! ReunionDB was the best way to go! It was so organized and easy to plan. We couldn't have done it better. Our reunion was a great success and a big part of that was using ReunionDB as they do the big bulk of the work. They kept us on a simple timeline and everything fell in to place perfectly. The website is easy to navigate and all the important information is easily accessible. We highly recommend using ReunionDB!!”

“I am so glad we used ReunionDB to help us plan our high school reunion! They did an excellent job finding addresses and emails for most of the classmates we were unable to previously find. They developed an extremely useful database that we can continue to use for years to come. Their staff was always available to answer my questions and offer suggestions for a successful event. Their marketing techniques were outstanding, providing us with unique graphics to use on Facebook and in emails that they sent to the classmates on our committee's behalf. I would certainly highly recommend using this company!”
“All of the people who work for RDB were very friendly and helpful throughout the entire reunion planning process. There are a lot of valuable tools that are available to you. The email blasts that go out frequently helps to cut down on postage and printing of fliers. The ease in which people could register was also very nice. We had a very successful reunion. Thank you ReunionDB!”

“I am so happy that we contracted with ReunionDB to help with our 45th class reunion! We couldn't have done this without them. Literally. From helping us locating students to keeping us on schedule and being available for any and all questions was just a piece of what these people do for you. I will be forever grateful and so will you! Don't even think twice about using ReunionDB. They are the best!”

“After being ‘volunteered’ to work on our 50th high school reunion with a few of my old friends, one of the first - and ultimately smartest - things we did was to contact ReunionDB. What a difference! From the beginning of the planning process through completing the post-reunion analysis, Tom Brown and his team provided the resources and the wise counsel needed to make our event as successful as possible. We were able to locate and contact many more of our classmates than we could have had we chosen to do it all ourselves. We retain access to the database so that we can update information on an ongoing basis. Our next reunion should be even easier to organize. Many thanks to the entire ReunionDB team!”

“This is the first year that our reunion committee has used an outside source for help with our reunion planning. We all were completely happy with all of the help that we received from ReunionDB. The database was a wonderful and very useful tool. The automation of payment process received great responses from our classmates. We appreciated all of the Marketing help throughout the planning process, and the continued help in the preparation of our Memory Book. We will definitely use ReunionDB for our future reunions.”

“ReunionDB was a tremendous help with planning our 50 year class reunion. Our class had not had a reunion in 30 years. ReunionDB helped us locate many classmates that would have been lost to us had we not used their search system and useful tips. The communication plan was priceless with the reminders about upcoming events and deadlines. A big help was the collection of money for tickets! There was no hassle about collecting checks, making bank deposits and sending acknowledgments. All that is taken care of through ReunionDB. They helped make our 50 Year Reunion a great success. One that our classmates are still talking fondly about months later.”

“It didn't take me long to figure out that ReunionDB was exactly what we needed. A secure database where my we could work in the database at the same time while living in different states!! With their guidance, we had a very successful reunion where 250 people attended and 10 faculty members! Don't look any further - you have found the best company to help you plan and organize your reunion and so much more! If you are on your committee to help organize your class reunion, I would highly recommend signing up with ReunionDB! You won't be sorry.”

“A computer search resulted in us finding ReunionDB. They helped find missing classmates, created a great class database, helped with content, timing and methods to reach out to classmates and helped put together a digital Reunion Memory Book that was free to all classmates with email addresses. Another great thing was that reunion ticket sales and payments were handled through their website. At our post reunion review, our committee was in unanimous agreement that contracting with ReunionDB was the best decision that we made. With the help of the ReunionDB staff, the tasks that we feared would be daunting actually ended up being an enjoyable process. We will be back in contact with ReunionDB in five years for our 55th reunion!”

“I was completely overwhelmed with the daunting task of organizing our High School 50th Reunion. Then someone recommended ReunionDB. This was truly a lifesaver. The expertise and professionalism of the team was outstanding. They walked me through the planning and organizational maze with finesse, found missing classmates and always answered my many questions. The frequent communications and ad campaigns, was truly beneficial. I couldn't have done this so successfully without ReunionDB. We had over 100 people at our Gala Saturday Night Reunion, with absolutely no complaints.”

“Special thanks to ReunionDB for helping us put together an amazing reunion. We would likely not have had a reunion at all if it weren't for ReunionDB. They helped us every step of the way, providing guidance and their invaluable experience. Everything they shared was spot on. They even helped us with our social media posts and had all the material and content. ReunionDB was the key to an amazing reunion. We will be using them again (because we have a great database with all of our classmates info) and we will be referring them to anyone we know who will be planning a reunion to use their services.”
“We used ReunionDB to help us with our 50th high school reunion in White Plains, NY. Our high school class was over 711 students! The staff at ReunionDB exceeded our expectations in every way. Tom Brown was beyond helpful by guiding us through the whole process, and reassuring us that we’d hit our ticket sale targets. They have helped many high school reunion committees and have the expertise we did not have. Their marketing campaigns allowed us to meet and exceed our attendance goals. We had the best reunion ever held by our class, thanks to the database management, promotion campaign and ticket sales managed by ReunionDB.”

“A friend recommended ReunionDB and I don't think we could have pulled it off without their help. I really didn't realize how much work planning a reunion entails. ReunionDB has an easy to use website and 24/7 personal support. Staff is always available by phone or email to answer questions and trouble shoot problems. Without ReunionDB's help getting the word out to classmates, our reunion would not have been nearly as successful. I would not hesitate to recommend ReunionDB to anyone planning a reunion.”

“ReunionDB is a company experienced with a history of success for events like our reunion. The marketing and organization for planning this event was far and beyond what our small planning group could have accomplished. With potential to reach the most graduates from 50 years ago and create enthusiasm and excitement to attend, this was money well spent for their service.”

“After planning our 40th reunion, I vowed not to plan another alone, if at all. So when the time came for our 50th, I looked for help and found ReunionDB. This turned out to be the best planning, developing, marketing and executing web-based site I have ever used, and probably will ever use. I was helped with the Reunion planning every step of the way...to locate and contact alumni, create and send out an invitation, and plan and stick to a realistic budget. Bi weekly conference calls kept everything on target. We ended up with a fantastic, fun, well attended Reunion and the ReunionDB folks did 90% of the work, and our committee got 100% of the credit! Highly recommended.”

"ReunionDB was fabulous to work with! Finding our classmates was hard without them because we didn’t have past contact information for our classmates. But the REAL need for this was the reunion planning calculator, marketing e-mail blasts and just the experience and knowledge that they were able to share with us. Great communication between the company and ALL committee members. Way to go and Thank you Reunion DB!"

"This has been the most positive experience we ever had in planning a high school reunion. And I have been involved in most of the reunions this class has put on. The ReunionDB staff was always hands on helpful. They say "if it works, don't fix it." This company has the experience and knows the best choices to market for the most wide outreach and highest attendance. We are so happy we are now able to keep this database and make updates whenever necessary, and use it for all of our future reunions. I would highly recommend Tom and ReunionDB!"

"ReunionDB was a highly instrumental piece to planning, directing, budgeting and tracking the progress to a highly successful reunion. Whether its your 5th reunion or 95th you need their guidance and expertise. I cannot stress this more that they will be the key to a successful reunion."

**ReunionDB was most helpful in helping us plan and execute our 50th Reunion! They provided step by step guidance throughout. They assisted us in obtaining contact information and setting up a contact database that we get to keep. I sent them our yearbook, which enabled them to scan all graduation photos into their program. They conferenced with us frequently throughout the entire process, insuring that we remained on track. Our Reunion was very successful! Thanks to ReunionDB, we reached out to a large percentage of our class and experienced the most wonderful, magical evening! I definitely recommend ReunionDB for planning your next reunion!**

**Our 40 year high school reunion was fantastic! It was due, in large part, to the wonderful staff from ReunionDB. They helped our reunion committee reach out to classmates that we hadn't been in touch with for decades. In addition, our weekly conference calls kept everyone on task which resulted in a terrific turnout for our reunion's main event. There is no doubt that we could not have had such an amazing 40 year reunion without partnering with ReunionDB! Thanks for everything.”**

“ReunionDB was a tremendous asset for our Reunion planning. The organized data collection and maintenance enable a maximum effort in contacting our Classmates. We were short on time but ReunionDB enabled us to salvage our Event. The personnel at ReunionDB were all professionals and displayed enormous patience with our analog capabilities. I will recommend their services to anyone I come in contact with that is preparing for a Reunion. Thanks for making our 50th Reunion the best reunion we ever had!”

“With the help of the staff at ReunionDB, we had a fantastic group of classmates at our 20 year reunion! We had a small committee, so I needed all the help I could get to keep things on track and make it successful. They were there every step of the way to make sure all the details were covered in regard to tickets and attendance. ReunionDB is a cost-effective method to manage reunion planning, ticket sales, photo name badges, finding classmates, and much more. There are so many great features with the database, and ReunionDB’s team is always coming up with new and innovative ideas to make it better. I would highly recommend ReunionDB to anyone planning a reunion.”

“I cannot say enough good things about ReunionDB. I was thankful that my committee voted wholeheartedly to use ReunionDB and we were not disappointed. The database is awesome and proved invaluable as we moved forward to our big reunion. Thanks Tom and your staff for helping us locate classmates, market our reunion, and then have the best time ever! If you are hesitant to sign up, just DO IT! You will not be disappointed. You will feel tremendous relief, trust me!”

**Testimonial 1:**

“This is the best service I have ever used hands down. I organized a 30 year high school reunion with a small committee (3 people). It was a huge success because of ReunionDB. There wasn’t one aspect of the reunion planning process that they didn’t do outright or help on. Besides the obvious database creation and payment processing etc., ReunionDB knew exactly what to say and when to say it throughout the 9 month process. The staff was excellent...Helpful, friendly, efficient etc. They did over 90% of the work and our committee got 100% of the credit from the attendees!”

**Testimonial 2:**

“We hadn’t held a reunion in 15 years! Needless to say, it was a daunting task to even begin to locate our classmates after all of these years...with the help of ReunionDB's marvelous tools, we got off to a great start! During the period of time leading up to the reunion, ReunionDB's marketing plan which allowed us to advertise on Facebook and also to send out frequent e-mail "Blasts" helped to build the excitement for our event! Offering attendees the ability to purchase their tickets securely online was an added plus! With many, many thanks to Tom Brown and his team at ReunionDB for making our 45th Reunion a resounding success!! We will definitely plan to use the services of ReunionDB for all future reunions!”

**Testimonial 3:**

“I chose ReunionDB after reviewing several other options. The tremendous success of our 50th Reunion can be contributed to this database and the excellent service from the ReunionDB Team. Tom gave invaluable advice and suggestions which we followed. They assisted in establishing our Facebook Group as well as directing me on timely email blast to generate interest and ticket sales for our Reunion. We had not had a Reunion in 25 years so locating our classmates was extremely difficult, but with the help of ReunionDB, we had a 70% turn out! I continue to use the site to update classmate’s profiles and to email items of interest to our classmates.”
“My high school reunion was coming up, and I really didn’t know where to start. I began to research companies that could help with the planning process and came across ReunionDB. After researching various companies, I finally decided to go with ReunionDB and was super excited that I did. Working with their staff made planning for my reunion such a breeze. The regular calls kept me on track and organized for what I needed from beginning to end. I probably would have gone nuts if I had to plan the reunion all by myself. The reunion was such a success, and a lot of it had to do with help from Tom and the ReunionDB team. If you want your next reunion to be smooth and a success, I would totally recommend Tom and the team at ReunionDB to help with the planning process.”

“It’s been 30 years since the Baltimore City - Class of 1965 got together, so imagine the formidable task of finding over 1,000 classmates. Thanks to ReunionDB, the job got a lot easier and then the registration process got even easier. So, too, did the ability to send emails to those with an RSVP as well as to remind others to RSVP soon. ReunionDB staff was there to help every step of the way. It’s a great planning tool and our class recommends it to anyone trying to put together a class reunion.”

“Our Reunion Committee was very pleased with Tom Brown and ReunionDB, from the beginning to the reunion date. Tom is very thorough and walked us through all of the steps for a successful reunion. He provided ideas and advice that our committee needed. Tom assisted with many reunions and we do one every 10 years, so we were definitely in need of his expertise, especially in getting more classmates to attend than in the past. All in all, our reunion was just what we had hoped for and much of the success was because of Tom and his staff. We would highly recommend ReunionDB to any reunion committee.”

“It would take a book to give true credit to ReunionDB for the help they provided us in setting up our reunion. Let us just say we do not know how we would have accomplished our mission without their help and in particular Tom Brown. They helped us with almost every facet of our effort and made many tough parts seamless. We (our committee) would simply like to say "thanks!" to Tom and his staff for what was a very successful reunion. We received many positive comments from our attendees and nothing negative. The thing is, few of them will never know the behind the scenes efforts of ReunionDB and what it took to pull it off. So, if you're looking for a successful event, I would HIGHLY recommend ReunionDB!”

“We honestly don't know how we would've planned our 40-year reunion without ReunionDB. Their budgeting feature was SO helpful. It helped determine our ticket price and helped us determine if we could afford all of the extras that made our night so memorable. Our regular calls with them kept us on track and with their expertise, we were able to generate ticket sales that we may not have had otherwise. I would totally recommend ReunionDB. We can keep our database updated between reunions which will allow us to be ready for our next one in 2020 - and we'll use ReunionDB again. They were great partners!”

“Our committee consisted of just 2 people, planning an event that we hoped would have at least 100 guests attending. We needed all the help we could get. ReunionDB's database allowed us to easily reach out to classmates and put the word in the street more effectively than traditional emails would have allowed. It gave our efforts a very polished and professional look, something that two busy committee members would simply not have time to do. ReunionDB allowed us to free up our time so we could focus on putting together the best event we could; attendance exceeded our expectations and I would highly recommend their services.”

"What started out as an arduous task became an efficient, effective process when I met the good people of ReunionDB. Following RDB's proven playbook enabled our planning committee (2 people!) to reach more classmates than ever before. The extensive and comprehensive database created by RDB facilitated frequent communication, provided real-time stats for instant progress reports and gave access to multiple queries and print programs. A huge relief was the on-line ticket purchase via credit card feature with an interface that safely and securely accomplished the critical accounting functions. This was most successful reunion we've ever had and I give RDB the lion's share of the credit. Their system and the hands-on support of their staff lead us every step of the way. ReunionDB is absolutely the ultimate resource for reunion planners everywhere."

"It was wonderful experience using ReunionDB. They gave us a good place to start finding classmates and helped us to communicate with everyone through Facebook posts & email blasts. We were able to get in touch with so many classmates and had an excellent turn out. Tom Brown was a great resource and kept us on track. Tickets being purchased online through ReunionDB meant we didn't have to try to run around getting money or cashing checks. The entire experience was really amazing!"

"ReunionDB was a huge help in coordinating our class reunion efforts. Their experience and knowledge was invaluable in coaching us through the timing of various contacts (mailing/eblasts/automated phone messages, etc.) with classmates, what information to send and recommendations on the correct way to set our ticket pricing. The database, and its many functional uses, saved us a lot of time and money. I highly recommend ReunionDB to anyone looking to plan a high school reunion."

“ReunionDB took the stress out of planning a reunion. Their staff had everything paced according to our timeline and we met everything perfectly and even had way more attendees that we initially anticipated. I honestly do not believe we could have had such amazing success without them. The nice thing now is that if we are going to plan for anything in the future, we already have everything all set up with them. They did all the hard work. It was really great. The rates for what they did are extremely reasonable too. I would definitely engage them in the future.”

“My 50th high school reunion was the best ever! We had more people come to the 50th than any before, thanks to ReunionDB. We had hoped to sell 100 tickets (at best), but with the marketing expertise and guidance of Tom Brown, we sold 156 tickets! Classmates came home from 27 states! Pure success, so much fun, and a weekend we’ll never forget. Every feature of the ReunionDB database and service was outstanding: finding classmates, database, conference calls, online ticket purchasing, accounting, name tags, memory book, everything. Many, many thanks to Tom and his staff. I highly recommend ReunionDB for anyone planning a high school reunion.”

“I would NOT have been able to organize and host the highly successful reunion that we had last summer without ReunionDB. The templates, database and hands-on assistance from Tom and his staff made the experience not only efficient - but enjoyable!”
“Every reunion committee should be using ReunionDB! Our class had a reunion every 5 years with very low attendance. When I joined the committee for the first time this year, I knew going in that my goal was to make sure every classmate was invited. Finding all of the missing classmates was our biggest problem and with a class of 549 students that was an overwhelming task. With the help of ReunionDB, we located 88% of them within days! Their staff was with us every step of the way. They know how to keep the upcoming event in the forefront of each classmate’s mind and generate excitement with mass emails, Facebook group updates and tiered ticket pricing. For the first time, potential attendees could watch the RSVP list grow from week to week which encouraged even more ticket sales. Our reunion was a huge success! We surpassed our ticket sales enabling us to have our entire ReunionDB startup fee refunded back to our committee...and we’re able to continue to use our database forever! If you’re searching for assistance in reunion planning, signing up with ReunionDB is a no-brainer! ReunionDB can turn a nightmare into a life saver!”

Reunion Date: November 16th, 2014

“I wish I could adequately express our thanks to Tom and all of the wonderful folks at ReunionDB for making our 40 year class reunion the wonderful success it was! We started planning in January for our October reunion. From our very first contact with ReunionDB, we literally had someone to guide us through every step of the process...all the while ensuring us that if we followed the program, it would be successful. Sometimes along the way you can become frustrated and wonder if all of the work will be worth it in the end...trust me, if you follow ReunionDB's proven method, it will! Perhaps the number one reason our reunion was so successful is that we had a very large number of attendees, which we could have NEVER done without the help of the amazing database. It does ALL of the work for you! During and following the event, the feedback was overwhelmingly positive, and all agreed, it was the best reunion we’ve ever had! And this was for the 40th! Please take our advice, and let ReunionDB partner with you to plan the best reunion you’ve ever had!”

ReunionDB™ Customer Testimonials & References

“I was the Chairperson for our 50 year reunion committee and I used ReunionDB to assist in organizing, marketing, managing the reunion. I am so glad that I did!!! What a great company! Utilizing their extensive experience with high school reunions they made my job so much easier. Through the entire step-by-step process of planning the reunion, they were completely "hands on" and helpful. The ease of use of their DB was great and I especially loved that all my classmates could buy their tickets online. The communication between me and my classmates using the email feature of the data base and their tips on how to best use social media was incredible. Bottom line...because of ReunionDB the attendance at our 50 year reunion surpassed all previous reunions!”

“ReunionDB is fantastic and all high schools should be using it! My 40th high school class reunion was held this past September, and it was the most successful reunion that our school has had in recent years! This could not have been accomplished without using ReunionDB and its invaluable database and customer service. Now that our database has been created by ReunionDB, we get to keep it and the contact information can be updated and maintained for future reunions. I highly recommend this company to all Reunion Committees out there!”

Reunion Date: September 14th, 2013

“We experienced a most successful 50th high school reunion. We organized 3 events in a weekend. We started very late and struggled with minimal committee involvement. Our saving grace was ReunionDB, who helped research our missing classmates and became both our marketing arm and our back office. They supported us throughout the entire process. Their systems are proven. Their scheduling of communication to first the prospects and then the RSVPs was impressive. ReunionDB’s team is led by Tom Brown, who is devoted to customer service. His patience and his instructive assistance truly made a difference in the success of the weekend.”

"I was dreading planning the inaugural 10-year reunion. I am forever grateful to the class president before me who insured that ReunionDB is the BEST use of money and time, and an essential service for planning success. With their technology, our yearbook was entirely online within a week. Their team not only does all the dirty work for you, they kept me on task with weekly check-ins, checklists, facebook management, mass email formats, and MUCH more. Their features truly keep you organized and at peace, to focus on the fun! I can’t say enough good things about this company. I am so grateful I found them and I could not have done it without ReunionDB's hand holding."

"I used ReunionDB for planning my 20 year high school reunion last summer. Let me just say that there is NO WAY I could have planned this reunion without their help! Even with my committee of five classmates, it would have been so much work on our part if we hadn't used the resources that Reunion DB makes available to you. ReunionDB was with us every step of the way in the planning of our event, and I am absolutely certain that we would not have had the incredible turnout we had if we hadn't used their services. If you need to plan a reunion and you do not want to be stressed out doing it, you MUST use ReunionDB!!"

**Phone:** (920)627-2501  
**Reunion Type:** 30 Year – Class of 1983  
**Reunion Date:** August 17th, 2013

“When our reunion committee got together to start planning our reunion we knew it was going to be a big task and we needed to find a way to make this year commitment fun and easy and not stress us out. Well we found it with ReunionDB. Tom Brown worked with us every step of the way, from training our group on how to use the system, to sitting in on our weekly meetings. They make sure we did everything we could to have a great turnout. I would highly recommend anyone that is planning a class reunion to use ReunionDB. Looking forward to working with them in 5 years!”

### Neil Erkert

**High School / State:** Council Rock High School / PA  
**Email:** perkyerk@aol.com  
**Phone:** (570)401-2729  
**Reunion Date:** October 5th, 2013

“Having struggled with not knowing where to start and what to do next with trying to organize our high school reunion, it was with great relief that ReunionDB said they could help make it a success and that we still had time to "make it all come together". Connecting with classmates was the first challenge as we were organizing a 50th reunion, ReunionDB gave us the latest known address and phone numbers, we were given direction with wording and when it would be the best time for sending updates and notifications. To sum it up, with ReunionDB this process was extremely well structured to optimize notifying of classmates of the specifics of the upcoming reunion and to reach out to those classmates that seem "unreachable".

### Becky Turner

**High School / State:** East Lyme High School / CT  
**Email:** becky.platypus.turner@gmail.com  
**Phone:** (802)356-0324  
**Reunion Date:** August 3rd, 2013

“ReunionDB really works! By following their process, our 20th reunion had a 40% attendance rate. That's correct - 40% of my classmates crossed the country and oceans to attend. Not only was it the highest attended reunion for my class, it was the highest attendance rate for any 20th reunion in the last few years. Reunion success relies heavily on the number of classmates who attend, and ReunionDB knows how to get them there. We will be using this formula for all of our reunions from now on. Thanks ReunionDB!”
### John McEntee

**Name:** John McEntee

“I loved working with ReunionDB for my reunion event. Their fast, efficient, and courteous service really contributed to the overall success of everything. I highly recommend them for anybody planning an upcoming reunion event!”

### Natalie Beall

**Name:** Natalie Beall  
**High School / State:** Findlay High School / OH  
**Email:** nbeall@dietschs.com  
**Phone:** (419)957-2633  
**Reunion Date:** August 10th, 2013

“Our reunion would not have been as successful as it was without the help of Tom Brown and ReunionDB. This was the first reunion that we have ever had so the thought of trying to track down classmates twenty years after we graduated was daunting. The bi-weekly conference calls, sales tools, sample email formats for reminders, etc. were all very helpful in the planning process. It was also very nice to have a place for people to go and order their tickets directly instead of everyone relying on me to collect checks, mail out tickets, etc. There is no doubt that when we plan our next reunion in five years that I will use ReunionDB again.”

### Joe White

**Name:** Joe White  
**High School / State:** Chattanooga High School / TN

**Phone:** (803)429-9423  
**Reunion Date:** August 23rd, 2013

“ReunionDB and staff were absolute life savers for our 50 year reunion. With almost 300 classmates, my committee was overwhelmed from the start. How do we find all these people? How do we plan an event when we know nothing? ReunionDB had answers for every question we asked. Their suggestions and timely marketing guidance met with incredible success. Our class was one that had never experienced a strong reunion response in the past. 45% of our living classmates attended. We owe much of our wonderful evening to ReunionDB and Tom Brown. Thanks for all you helped us accomplish.”

"ReunionDB was just great for our reunion. I have planned 3 reunions for our class. Even with a decent database in place, RDB was able to find MANY classmates that had been lost to us. Tom was great to work with. His marketing and event advice and the tools in the program were invaluable. Our classmates were impressed by the high level of communication and the ease of online ticket ordering. We will really be in good shape for the next reunion because we got to keep the database. I will never plan another reunion without RDB! Thanks, Tom!"

"ReunionDB is the best! Tom Brown and his staff saved us. With only four months to plan our 40th reunion, they made it happen. Only one member of our small staff had worked on a reunion committee before so we needed a lot of help - and fast! They were key in helping to find our missing classmates, track them down and communicate our message. In addition, they helped us with key decisions about the event and follow-up communications. We had an excellent reunion and plan to use Reunion DB again for our 45th."

"Oh my gosh, ReunionDB made this exhausting process flow with an amazing amount of ease. Tom walked me through every step, helped to keep my "To-Do" projects under control and helped me avoid the possible panic of any disaster. He and his staff made themselves available whenever I needed them and they worked hard to ensure my event would go off without a hitch. I can't thank ReunionDB enough!"

“I planned my 50th class reunion last year. Although this is the 3rd reunion I have planned, ReunionDB was a great help. It was worth the money. They located missing classmates after 50 years. It was so much easier for classmates to register and pay online. I saved lot on postage and stationary! Everyone at ReunionDB is very nice and helpful - especially Tom who would quickly returned my phone calls and answered all of my stupid questions! I would recommend ReunionDB to anyone planning a reunion.”

“Reunion DB is phenomenal! Had I not found this company, I truly don’t know how I would have successfully organized my 10 year class reunion, much less had the amazing turnout that we had! Even the CEO and founder, Tom Brown, was personally available through email/phone correspondence for questions, logistics, and words of encouragement. From online ticket purchasing to easy print off name tags for the event, ReunionDB took the stress out of the planning process! I cannot thank them and recommend them enough!”

“ReunionDB was instrumental in helping me with our 40-yr reunion. The database/website was extremely easy to use, made it very convenient for classmates to RSVP with their credit card, easily updatable to add pictures and I loved the calculator for ensuring I was always in the green. The personal attention that I received from the ReunionDB staff was beyond words and helped ease my angst on several occasions. Thank you again ReunionDB!! I’ve already referred their company to 3 friends for their reunions in 2013.”
“If you are a reunion planner, this is the ONE tool you don't want to do without! From helping you to determine the correct ticket price, to collecting payments and even printing out the name badges, this product will quickly become your best resource for a successful reunion. I single-handedly hosted a reunion with a class size of 515 and I promise, if it weren't for ReunionDB, it would have been a nightmare. Thank you Tom and the entire ReunionDB staff!”

“To all planning a reunion: We just had our 50-year and it was a success thanks to the services provided by ReunionDB.com We had not had a reunion in 18 years (no formal reunion at all). We started out without a database and they built our entire class database for us. Loved the ability to generate reports, update info, also having accurate changes to the email info when people signed up for a ticket for the reunion. This was so helpful in providing payment options, etc. Would not do a reunion without this valuable tool. Cannot say enough good things. Tom and his staff were very helpful and always had quick responses to my questions.

“A reunion planner needs ReunionDB mainly to save their sanity. It didn’t take me long to find out that I did not have the time, knowledge or patience to find all the missing addresses from our class. ReunionDB took the worry out of the initial searching. Collecting money was a breeze with online payments using credit cards. Putting our Memory Book together was painless because classmates filled in their own info right online. Denise and Tom were wonderful to work with. They guide you every step of the way with what you need to do and when you need to do it. I definitely recommend ReunionDB for planning a reunion.”

“Planned our 30th reunion that was held this summer. Having also been involved in planning our 10th and 20th year reunions and experiencing both "do-it-yourself" planning and using a reunion planner, our committee was convinced that ReunionDB lessened our stress levels. From building the database, providing help in locating classmates, budgeting and most importantly, collecting and sending us the money, ReunionDB took a lot of the burden off the committee's shoulders. As an added bonus, the database is ours to keep!”
